Tap Boxes

Description

- Tap Boxes are a great option for multi-tenant applications, taking power from utilities and distributing it to multiple end users. A 3pt latching system and padlockable cabinet provide a secure enclosure.

Features

- Mechanical lug connections rated for multiple circuit configurations.
- Silver-plated bussing for superior electrical conductivity and corrosion resistance.
- 304 stainless steel enclosure option for enhanced durability.
- Compact design with flexible installation options (top/bottom feed standard, side entry capable).
- Factory tested and ready for immediate installation.
- Scalable amp ratings from 400A to 3200A.
- UL Listed.

Part Number	Amperage (A)	Line Side Lugs (per pole)	Load Side Lugs (per pole)
TAPBOX-400A	400	(2) #6–250 MCM, (2) #4–600 MCM	(2) #6–250 MCM, (2) #4–600 MCM
TAPBOX-600A	600	(2) #6–250 MCM, (2) #4–600 MCM	(2) #6–250 MCM, (2) #4–600 MCM
TAPBOX-800A	800	(2) #6–250 MCM, (2) #4–600 MCM	(2) #6–250 MCM, (2) #4–600 MCM
TAPBOX-1200A	1200	(8) #2–600 MCM	(8) #2–600 MCM
TAPBOX-2000A	2000	(8) #2–600 MCM	(8) #2–600 MCM
TAPBOX-3200A	3200	(8) #2–600 MCM	(8) #2–600 MCM
